Offers a practical and theoretical coverage of investments market. This book places emphasis on asset allocation, and offers a treatment of futures, options, and other derivative security markets.

This textbook emphasizes asset allocation while presenting the practical applications of investment theory. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace.

Investments sets the standard as a graduate (MBA) text intended primarily for courses in investment analysis. The guiding principle has been to present the material in a framework that is organized by a central core of consistent fundamental principles and will introduce students to major issues currently of concern to all investors. In an effort to link theory to practice, the authors make their approach consistent with that of the CFA Institute. Many features of this text make it consistent with and relevant to the CFA curriculum. The common unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. Investments is also organized around several important themes: The central theme is the near-informational-efficiency of well-developed security markets and the general awareness that competitive markets do not offer "free lunches" to participants. A second theme is the risk/return trade-off. Also, this text places great emphasis on asset allocation. Finally, this text offers a broad and deep treatment of futures, options, and other derivative security markets.

The integrated solutions for Bodie, Kane, and Marcus' Investments set the standard for graduate/MBA investments textbooks. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
