There are two things in this life that Gus Brannock truly loves; his family and his job. His family is growing and he wants what his brother and sister have before the job he's worked so hard for takes its toll. The woman he's got his eye on, however, isn't interested in being with a man who risks his life every day. When the unexpected friendship with the sassy red head he used to hate turns into something Gus just doesn't want to live without, he will do whatever it takes to have her. The hazards of his job as a detective for missing children may end up proving to be too much, but there's a reason Aiden was brought into his life and nothing will stand in his way to keep her there. Aiden Murphy used to hate the handsome jerk next door until a surprising discovery spun her world in another direction. Her life of devotion to her sister and niece has been her biggest strength with the exception of her art. That is, until Gus turns out to be the one thing that has been missing from that life all along. Aiden must decide if the unknown is worth the risk of loving the dedicated detective or if being pulled into his world is more than she can handle. When Gus becomes the only way for her to keep the people she loves most safe, will she understand why he treasures her untried strength or will she let her fear of the unknown decide for her?

Merrick Thatcher went through a hell that no one could possibly imagine. He fought to protect his country, his family, and the men standing at his side, but it wasn't just being a soldier overseas that changed him. He watched his friends die in front of him, felt indescribable pain, and lost his sight in the very same moment. Badly injured, blind, and angry, he's done with war, but now he's fighting his own battle. So, he's waiting for it to end, spending his days and nights in a thick darkness no light can penetrate. Until Grace walks into his life and his broken eyes open to a woman that changes everything for him. A story about two flawed souls finding love amidst the grief. A love that shines vividly, even in the dark, and discovering that sometimes being broken is how the light gets in.

Fear. It's the last thing I remembered. I was afraid. Afraid to fight, afraid to run... afraid to breathe. Then, everything had gone dark. As if life was finally hearing my pleas, my cries to end the torment. To end the fear. But even in the dark, I still felt it. I always felt it. My life had been a ricochet of one event leading to the next. Bouncing back and forth from good to bad. Happiness to despair. Hope to fear. My name

is Arianna West. I'm stronger now. Steady. Alive. I can find a way to survive on my own. I can see what is coming for me. I can channel my fear into strength. Except... I didn't see Jack. And Jack changed everything. For readers 18+ due to language, violence, and sexual content.

Luckily, Emmy has her friends and bandmates, including the super-swoonworthy Alfie, to help her pick up the pieces of her life. She knows hooking up with a band member is exactly the kind of trouble she should be avoiding, and yet Emmy and Alfie Just. Keep. Kissing. Will the inevitable fallout turn her into a clickbait scandal (again)? Or will she find the strength to stand on her own? Jen Wilde, author of *Queens of Geek*, which *Seventeen* called, "the geeky, queer book of our dreams" is back with a brand new cast of highly diverse and relatable characters for her fans to fall in love with. Praise for *Queens of Geek*: "The book deals head on with issues of mental health, body shaming, sexuality, and internet celebrity, handling them with a delicate and skillful touch." —*Teen Vogue* "This fun book about fierce friendships gives voice to a group of diverse female characters who are so defined by so much more than just their mental health and sexuality." —*Bustle* "This celebration of geek culture and fandom promotes diversity and being true to oneself." —*School Library Journal*

Madison is nervous. She was entered in an auction to be bid on for her housekeeping skills. She will provide the winner with housework for a week. She puts her guard up as soon as she finds out the notorious playboy millionaire Alex Donahue won the bid. He demands that she be a hostess at a business party he's throwing, but he's having a hard time keeping his eyes off her!

Conall Brannock takes his job seriously. He doesn't get attached, he doesn't ask questions, and he protects his family at all costs. Nothing will change that. Not even the sweet, green eyed witness that just burst into his life and shifted his world. He has one job to do; protect her until she can testify. He can't let his interest in her get in the way, but the more he finds out about her, the more he can't help but wonder how the beautiful broken girl got into this mess in the first place. And the longer he takes to learn the truth, the deeper he falls for her. Emily Dawson has a job to do. Stay off the grid, testify, and hopefully get her brother back. He's all she has left of the family she struggled so hard to hold together and she would do anything to keep him safe. Even if it means she has put herself in harm's way or that she has conned everyone into believing she saw something she didn't. She knows where her loyalties lie, but her stoic yet gentle protector and his crazy family makes her question everything she once knew. Loyalty can be one sided. Family isn't always blood. And honesty can destroy everything she has come to love.

Can the Balkans ever become a peaceful peninsula like that of Scandinavia? With enlightened backing, can it ever make common cause with the rest of Europe rather than being an arena of periodic conflicts, political misrule, and economic misery? In the last years of the twentieth century, Western states watched with alarm as a wave of conflicts swept over much of the Balkans. Ethno-nationalist disputes, often stoked by unprincipled leaders, plunged Yugoslavia into bloody warfare. Romania, Bulgaria and Albania struggled to find stability as they reeled from the collapse of the communist social system and even Greece became embroiled in the Yugoslav tragedy. This new book examines the politics and international relations of the Balkans during a decade of mounting external involvement in its affairs. Tom Gallagher asks what evidence there is that key lessons have been learned and applied as trans-Atlantic engagement with Balkan problems enters its second decade. This book identifies new problems: organized crime, demographic crises of different kinds, and the collapse of a strong employment base. This is an excellent contribution to our understanding of the area.

Five years ago, Tessa Marshall turned her back on everything she once knew. She left behind her friends and family hoping they would be better off without her in the way. Now, after being diagnosed with dissociative identity disorder (Multiple personality disorder) and determined to set her life straight, she is going back. She doesn't expect her best friend growing up, and the only man she has ever loved, to be waiting for her. Charlie Mackenzie never knew the real reasons why Tessa left, but because of the promises he swore to keep, he feels responsible. He has spent the last 5 years fighting underground MMA, staying distracted, and trying not to chase after her and drag her back to him. Now that she is finally back, he won't allow her to push him away without knowing how he has felt about her all along. The only problem? He's not just dealing with Tessa anymore. Tessa won't let herself be a burden to anyone and being with Charlie will only complicate his life, and hers, but she can't seem to shake him, and Benny, her friend from 'The Facility', isn't helping matters. Learning to live with not only the people around her, but the people in her head, isn't as simple as she thought it would be and Charlie is forcing her to abandon all of the control she thought she had. The two of them must decide if their love is worth fighting for and Tess has to learn to just let go, because Charlie won't let her go. He won't let any one of her go.
