In this classroom-tested approach to writing, Brock Dethier teaches readers how to analyze and write twenty-one genres that students are likely to encounter in college and beyond. This practical, student-friendly, task-oriented text confidently guides writers through step-by-step processes, reducing the anxiety commonly associated with writing tasks. In the first section, Dethier efficiently presents each genre, providing models; a description of the genre's purpose, context, and discourse; and suggestions for writing activities or ¶moves¶ that writers can use to get words on the page and accomplish their writing tasks. The second section explains these moves, over two hundred of them, in chapters ranging from ¶Solve Your Process Problems¶ and ¶Discover¶ to ¶Revise¶ and ¶Present.¶ Applicable to any writing task or genre, these moves help students overcome writing blocks and develop a piece of writing from the first glimmers of an idea to its presentation. This approach to managing the complexity and challenge of writing in college strives to be useful, flexible, eclectic, and brief:a valuable resource for students learning to negotiate unfamiliar writing situations.

"Written in a clear and accessible style that would suit the needs of journalists and scholars alike, this encyclopedia is highly recommended for large news organizations and all schools of journalism." ¶Starred Review, Library Journal Journalism permeates our lives and shapes our thoughts in ways we've long taken for granted. Whether we listen to National Public Radio in the morning, view the lead story on the Today show, read the morning newspaper headlines, stay up-to-the-minute with Internet news, browse grocery store tabloids, receive Time magazine in our mailbox, or watch the nightly news on television, journalism pervades our daily activities. The six-volume Encyclopedia of Journalism covers all significant dimensions of journalism, including print, broadcast, and Internet journalism; U.S. and international perspectives; history; technology; legal issues and court cases; ownership; and economics. The set contains more than 350 signed entries under the direction of leading journalism scholar Christopher H. Sterling of The George Washington University. In the A-to-Z volumes 1 through 4, both scholars and journalists contribute articles that span the field's wide spectrum of topics, from design, editing, advertising, and marketing to libel, censorship, First Amendment rights, and bias to digital manipulation, media hoaxes, political cartoonists, and secrecy and leaks. Also covered are recently emerging media such as podcasting, blogs, and chat rooms. The last two volumes contain a thorough listing of journalism awards and prizes, a lengthy section on journalism freedom around the world, an annotated bibliography, and key documents. The latter, edited by Glenn Lewis of CUNY Graduate School of Journalism and York College/CUNY, comprises dozens of primary documents involving codes of ethics, media and the law, and future changes in store for journalism education. Speculative Fictions places Alexander Hamilton at the center of American literary history to consider the important intersections between economics and literature. By studying Hamilton as an economic and imaginative writer, it argues that we can recast the conflict with the Jeffersonians as a literary debate about the best way to explain and describe modern capitalism, and explores how various other literary forms allow us to comprehend the complexities of a modern global economy in entirely new ways. Speculative Fictions identifies two overlooked literary genres of the late eighteenth-century as exemplary of this narrative mode. It asks that we read periodical essays and Black Atlantic captivity narratives with an eye not towards bourgeois subject formation, but as descriptive analyses of economic systems. In doing so, we discover how these two literary genres offer very different portraits of a global economy than that rendered by the novel, the imaginative genre we are most likely to associate with modern capitalism. Developing an aesthetic appreciation for the speculative, digressive, and unsystematic plotlines of these earlier narratives has the capacity to generate new imaginative projects with which to make sense of our increasingly difficult economic world.

Sophisticated and well-curated, this photographic tour through Canada's history documents the nation's evolution over more than a century, as seen through the lens of photographers from The New York Times. The book compiles more than 100 iconic, momentous and inspiring images of Canada and includes ten commentary pieces from a range of important thinkers, historians and writers, including National Chief Shawn Atleo, MP Justin Trudeau, historians Charlotte Gray, Peter C. Newman and Tim Cook, and sports columnist Stephen Brunt. The book includes photos arranged according to the following themes: ¶ The Battlefield: Canada at War ¶ Aboriginal People ¶ The Changing Face of Canadian Society--Our Immigration Story ¶ Landscape ¶ The Political Arena ¶ Industry ¶ The War Machine: How the Homefront Supplied the Wars ¶ Hockey ¶ Icons (Stars, Sports Heroes, Political Figures, Royalty)
