High Level Language in DMIS. Almost every CMM software package provides HLL in various formats: native DMIS, non-Dmis, VB script, etc. Even in very old software like Umess, you can do very complicated things in PCM, for which a thick book can be written. Since many software in the market is still trying to comply with dmis standard to a high percentage and I'm a fan of dmis programming so I'll use dmis HLL as example.
