MDA & SOA in the Enterprise - Model Driven

MDA Overview. OMG members voted to establish the MDA as the base architecture for our organization's standards in late 2001. Software development in the MDA starts with a Platform-Independent Model (PIM) of an application's business functionality and behavior, constructed using a modeling language based on OMG's MetaObject Facility™ (MOF™). This model remains stable as technology evolves, extending and thereby maximizing software ROI.
